

Delivering Quality Project Management Outcomes

## Capability Statement

[www.quayit.com.au](http://www.quayit.com.au)

Quay IT Pty Ltd is a specialist project management consultancy firm and an approved supplier under the NSW Government SCCB Contract No. 2020. Quay IT delivers the full range of project management professional services, from guidance on Information Technology Strategy and Portfolio Management at the Enterprise level through to the provision of individual Project Managers for projects. Quay IT works collaboratively with its clients to drive demonstrable value through consistent predictable and professional project delivery.

### Why use Quay IT?

Quay IT is an Australian owned consultancy firm whose core business is project delivery.

- Quay IT Consultants are respected leaders of the Project Management Institute community with in-depth knowledge and experience of project delivery across many industries and technologies
- When you engage the services of Quay IT you work with a team of experts not an individual
- As a major differentiator every Quay IT engagement has its own Quay IT Quality Assurance team providing our consultants with continual focus to assess progress and drive quality deliverables. Quay IT offers this service as a "value add" at no additional cost to our clients
- Quay IT is in the business of creating and maintaining long term strategic and trusted client relationships.

### Our People

Quay IT prides itself in the quality of our people. In a professional service business success is derived from the knowledge, skills and attributes of our management and staff. Our senior consultants have held positions such as Treasurer of the PMI Sydney. Another is a well respected global presenter, author and PMBOK reviewer, whilst others are presenters for a number of PMI courses.

Quay IT consultants are proficient with a number of the industry standard Project Management Methodologies including PRINCE2, PMBOK and the use of client in-house Methodologies.

### Our Clients

Quay IT is an approved supplier under the NSW Government SCCB Contract No. 2020 and has demonstrable extensive government experience. Quay IT's clients also include private enterprise across a wide range of industries including banking and wealth management, utilities, media, logistics, retail and charitable organisations.

### Our Services

#### Project Delivery

Quay IT's Project Delivery services include:

- Programme / Project Management
- Requirements Management
- Quality Management
- Change Management
- Business Rule Management
- Risk management

#### Project Assurance

Quay IT understands the importance of impartiality and attention to detail in the project assurance process and consistently provides added value to PMO's and Project Managers alike. Quay IT Project Assurance services include:

- Governance and Policy Management
- PMO Creation, Management Support

Delivering Quality Project Management Outcomes

## Education and Accreditation

Quay IT provides courses in:

- Project Management
- Risk Management
- Scheduling
- Change Management
- Vendor Management

Quay IT also provides PMO mentoring and coaching services for Programme and Project Managers.

Quay IT has accreditation to assess and accredit your Project Managers.

## PMO as a Managed Service

Quay IT has developed a PMO as a Managed Service enabling organisations to have their PMO managed as an on-site/off-site service. This service allows the PMO to scale up and down based upon demand of the organisation and leverage the expertise of dedicated and experienced PMO managers. We can refine your existing PMO deliverables and methodology or create a PMO from scratch. We can also provide you with the policies, processes, check lists, tools and templates to support your methodology.

## Resourcing

Quay IT resources include:

- PMO Consultants
- Programme Managers
- Project Managers
- Solutions Architects
- Business Analysts
- Change Managers
- Test Managers
- Test Analysts.
